N. CHARLESTON SC 29419-9010

Re: Zone H, Site 02 Building NS 53
Site Identification # 00957
First Quarter 2001 Monitoring Report received 20 March 2001
Charleston County

Dear Mr. Magwood:

The Department has completed technical review of the referenced document. Interpretation of the analytical data provided in the referenced report indicates that chemicals of concern are below established Risk-Based Screening Levels and MCLs. However, the Department does not concur with the recommendation that this site be issued a no further action. Due to the historical presence of free product at this site, routine groundwater monitoring and reporting should continue as prescribed in the Corrective Action Plan dated December 2000.

Should you have any questions, please contact me at 803-898-3553 (office phone), 803-898-3795 (fax) or bishopma@columb32.dhec.state.sc.us.

Sincerely,

Michael Bishop, Hydrogeologist
